Above: Ms O’Toole discusses ‘scarecrow strategies’ with Abi Clarke and Nikita Schembri during a scarecrow construction session this week. Get along to the Rushworth Easter Festival to see the completed works.

Below: Year 9 students explored the career options available in the Agriculture/Horticulture industry last week. Read more on page 6.
News from the Principal....

It is hard to believe that we are in the last few days of Term 1, it seems like only yesterday that we were welcoming our 2014 Prep and Year 7 students to the College. As always the Term has been busy with lots of positive highlights. The success of the College and the highlights that come about each term would not be possible without our vibrant College community, this includes students, staff, parents and members of the broader community. Thank you to all of our Rushworth P-12 College community members for your part in giving us a fantastic start to 2014.

Some of the highlights that stand out from Term 1 for me include:

- **Our inaugural P-12 Swimming Sports** that bought all of our students together for an action packed day at the Rushworth Swimming Pool. With a break from tradition we saw all of our students combine as a P-12 College to participate in a range of traditional and fun events. The many smiling faces on the day and great full colour coverage on the back of the Waranga News highlight just how positive this change was.

- We commenced 2014 with celebrations even before school began with the **2013 Year 8 Girls’ Volleyball Team and Blake Rosenberg both being nominated for Australia Day Awards** within the Campaspe Shire and Waranga Ward. Congratulations again to our 2013 Year 8 Girls Volleyball Team for receiving the Junior Sports Person/Team Award for 2014.

- 2014 has seen the introduction of an integrated approach to VCAL delivery for our VCAL students in Years 11 and 12. After much planning and deliberation in 2013 it has been fantastic to see this **new approach to VCAL being implemented with considerable increases in student engagement, attendance and achievement being witnessed**. The new approach allows students to engage in project based learning that links with our local community. Thank you to our VCAL students and teachers who have been working over the past week in supporting local schools, St. Mary’s and Colbinabbin Primary, as well as the Rushworth Preschool in constructing scarecrows for the upcoming Easter Festival.

- The past fortnight has seen parents, students and teachers coming together to discuss and share the work of students throughout Semester 1. I am delighted to say that in Term 1 2014 we have had the best response for over three years in regards to parent teacher interviews. **It has been great to see students and parents actively engaging with and working with teachers to support the learning that is occurring, thank you.**

- As well as some exciting developments on the student learning front our staff have been busy with a range of professional learning being undertaken throughout the Term. The term commenced with all teachers gaining a better understanding of **Classroom Instruction that Works**, 9 research proven strategies to support and further develop rich student learning. Later in the term all staff have started the **Positive Behaviour Interventions & Supports (PBIS) journey with some key training, the development of a PBIS Team including students, staff and parents**, and work on the expectations that we will commence work on in 2015.

**Staffing News**

The end of Term 1 is also bringing with it the end of two staff member’s time with us here at Rushworth P-12 College. Miss Nicole Summerhayes has tendered her resignation as a teacher and will be venturing on to new and different challenges at the conclusion of this term. On behalf of the College I would like to thank Nicole for her short stay with us and wish her every success with the new challenges that await her.

Miss Deanne Nobbs will also be leaving us as she accepts a nine month appointment to Wanganui Park Secondary College. Again, I wish Deanne every success with her new role and the challenges that come with it.

College Values : RESPECT, Resilience, Excellence, Support, Persistence, Encouragement, Community, Trust.
Whilst these two departures do make for challenging circumstances, particularly as the teachers involved were teaching Year 12 VCE classes, I have every confidence that through our recruitment efforts we will place teachers in these positions prior to the commencement of Term 2. Our replacement teachers will work as part of the College team to provide high quality teaching and learning experiences to our students for the remainder of 2014.

Term 2 will see the return of Mr Stephen Baker to the College. Mr Baker’s teaching role will be finalised in line with the recruitment of our new staff for English and Food Technology.

**Safe Holidays**

On behalf of our staff team I would like to wish all of our students, parents and community members a safe and relaxing school holiday break.

**Don’t forget to support our local Easter Heritage Festival over the Easter Weekend, come along and have a look at the great scarecrows that have been made by our students over the past week.**

*Kind regards, Brad Moyle, Principal*

---

Students and Families are to be reminded that **SMOKING** is **strictly prohibited** at the College.

This means that students are not permitted to smoke during the school day - either within the College grounds or out of them.

---

**SCHOOL PHOTO DAY**

*School photos will be taken on Thursday 24th April so please return orders to the General Office before then.*

---

**PBIS ‘Expectations’ Voting Day and BBQ**

Community welcome to participate

**Thursday 15th May**

To be held at the front of the College

11.30 am to 1.00 pm
This term has been very busy for everyone in the Prep/One/Two classroom; we welcomed seven new students at different times during the term. All students have settled into the school routine well and are enjoying learning and making new friends.

The swimming program and whole school swimming carnival provided lots of learning opportunities and excitement.

We have all made great progress with writing and numeracy process, well done everyone!

We have also been very busy planning and building our robot scarecrow for the Easter Festival.

We were all very excited to see the prep students in the Shepparton News prep feature last week.

All students are looking forward to and are very excited about our excursion to Sovereign Hill, by Friday I am sure all students will be very tired and full of new experiences to talk about.

Well done everyone for a great term everyone.

I hope you all have a great holiday break and I look forward to lots more learning and exciting events with you next term.

Megan Flynn
**Grade 3/4**

Grade 3/4’s have had a good start to the year with progress made within our literacy and numeracy learning areas.

One of our interesting highlights was our Volcano study in inquiry. We made our own volcano erupt outside, students were able to discuss and explain what was happening to our volcano.

Students are also very excited to be heading off to Sovereign Hill this week.

*Belinda McDonald*

---

**Year 5/6**

It's hard to believe that Term One is nearly over! In the Grade 5/6 classroom, we have been very busy with different learning experiences in Literacy (Reading and Writing), Numeracy and Inquiry (All About Me and Government and Current Affairs). We have thoroughly enjoyed using our Netbooks as part of our learning across the different subjects, especially in Maths! Students have enjoyed having Food Technology on a weekly basis and have learnt and displayed a number of impressive cooking skills! Students have worked hard on displaying the College Values through their behaviours in the classroom and out in the yard. We have worked on learning about the different aspects of the word “Respect” as well as how we can teach others about our school values and class rules. This Term, we have participated in the College Swimming Program, had our Primary School Captains represent the Primary Area at a community event held at the College and participated in the Rushworth Easter Festival Scarecrow making competition.

*Reminder*: Over the holidays, students are reminded to keep up with their reading to ensure that strategies taught during the term are not forgotten over the holidays. Reading challenging words will also assist students to remember spelling patterns and strategies to spell these words. Practice of Times Tables will also assist students to keep up to date with number problem solving and related facts.

*Katherine McIntosh*

---

**Year 7**

The Year 7’s have made the transition from primary school to secondary school this term and it has been wonderful to see just how well they have settled into secondary school life here at Rushworth P-12 College.

For many students, this transition had them being more responsible for themselves and their learning, and also had them experiencing new subjects such as Science, Food Technology and Design Technology.

The biggest highlight for the Year 7 students this term would have to be the Year 7 camp to Nagambie, where students got to participate in a range of activities and build on the new relationships that had already begun to form at school.

The Year 7’s should be congratulated on the positive start they have made to Year 7 here at Rushworth P-12 College.

*Maree Moyle*
Year 9 students explore the world of Agriculture/Horticulture.

The Year 9 students at Rushworth P-12 College recently experienced a career taster day in the Agriculture/Horticulture industry on March 19.

Campaspe Cohuna LLEN along with Rural Skills Australia developed a ‘Day in Industry’ for the students to explore the various options available locally in the Agriculture/Horticulture field.

Students travelled to Tatura to visit the Dept. of Primary Industries.

DEPI Tatura is recognised nationally and internationally for research leadership in irrigated agricultural production systems, integrated pest and disease management and innovative practice change. The site includes extensive office buildings, laboratories, glasshouses, equipment and farm plant storage sheds, chemical storage and a purpose-built Incident Control Centre for DEPI emergency responses. Key programs at DEPI Tatura are horticulture, dairy, fisheries, biosecurity and emergency management. Research activities include dairy pasture and horticultural research plus an automated Bureau of Meteorology weather station. Students enjoyed learning about the weather station and exploring the grounds.

After some morning tea it was time to board the bus to Nagambie. Mitchelton winery was the next stop. Students were given a very insightful tour to see machinery and the process of crushing the grapes, chiller, press, bottle & talk about careers and opportunities in the wine industry. Students and staff also got to see the amazing gardens and landscaping that has been done around the winery, and learned a little about career options in horticulture.

Then it was off to what seemed to be – as voted by all the students – the highlight of the day – a visit to Swettenham Stud!

Swettenham Stud has been to the fore of innovation, excellence and dedication to improve breeding in racehorses. Swettenham Stud prepared and sold in 2008 super sprinter Black Caviar. Students were shown through the facility & heard talks of careers in breeding and how these careers can take you all over the world and can be very rewarding.

The College wishes to thank the CCLLEN and Rural Skills Australia for providing this opportunity to our students free of charge – all of the students found it to be a worthwhile experience even if they are not considering a career in agriculture/Horticulture.

The CCLLEN will support the College with more of these days throughout the year for our Year 9 students, with upcoming events to include taster days in ICT, Health and Leadership.
COME TO
RUSHWORTH EASTER HERITAGE
FESTIVAL 2014

EASTER SATURDAY IN RUSHWORTH HIGH STREET

Wood and produce auction
Ballyregan Bush Band
Face painting—Snakebusters display & shows
Animal Farm—Ventriloquist show 2 pm
Market stalls—Scarecrow competition
Historical Exhibits—Art Exhibition
Street Parade at 1 pm—roaming entertainment
Easter Egg Hunt—Classic, hot-rod cars, trucks, tractors and motor bikes

EASTER SUNDAY AT MOORA - 7 KM FROM RUSHWORTH

See 80+ Working Draught Horses demonstrating how they farmed the land and helped our pioneers. They ploughed the soil, sowed the seed, cut the crops, cleared the land, constructed roads, delivered goods and many other tasks.

Great opportunity to get close to, and photograph, these magnificent animals.

Also there will be vintage craft displays and live music. Delicious food will be available.

Saturday Info: Heather 0429686375
Sunday Info: Marilyn 58561405
On the 24th of April
Your Invited to
the Rushworth P-12 ANZAC Memorial Service

The ANZAC Memorial service is a gathering to remember and support the people that served for our country, and that fought to keep it, and us safe.

The ANZAC Memorial will be held at Rushworth P-12 College on the 24th of April, starting at 2:45 and finishing at 3:20.

College Values: RESPECT, Resilience, Excellence, Support, Persistence, Encouragement, Community, Trust.
**My Great Grandfathers!**

**Private Andrew Lawrie:**
My great grandfather Andrew Lawrie is my grandmother’s father on my father’s side of the family. He was a veteran of World War I. He was a farmer in Rushworth, he enlisted at the age of 28, and he left Australia on the 27/5/1916 with only two months training in hand. He left the army in 1919. He was a private in the 5th battalion and awarded the 1914/15 star, the British war medal and the Victory medal. He was born in Rushworth, Victoria on the 24/4/1888 and he died on the 27/4/1959. He had a wife named Dorothea Olive who was born on the 11/12/1900 and died on the 2/1/1966. Together they had five children Margaret (my grandmother), Robert, Olive, Wallace and Joan. Both of my great grandparents are buried in the Rushworth cemetery. A portrait of my great grandfather Andrew Lawrie is hanging in the main hall of the Rushworth P-12 College.

**Major Charles West:**
My great grandfather Charles West is my grandfather’s father on my father’s side of the family. He was a veteran of World War I. After being born in Lake Rowan, Victoria in 1887, he was a farmer in the Colbinabbin area but walked away from the farm in 1935 during the great depression, he then worked for various people around the Colbinabbin area. He joined the army in 1916 as a private and he was sent to France with his younger brother Norman; he also served in World War II. Charles was awarded the British war medal, the Victory medal and a Military medal for bravery in the battle field as he took his team though the battle field and bombed the German trenches. When he left the army he was a Major. He married Heather Crook and they had six children John (my grandfather), Geoff, Frank, Margaret, Robert and Allen. He died in 1962 and both of my great grandparents are buried in the Colbinabbin cemetery.

*By Daniel West Year 8*

**DAWN SERVICES**

The Dawn Service observed on the 25th of April (Anzac Day) has its origins in a military routine that is still followed by the Australian Army today. Anzac Day traditionally begins with a Dawn Service. Dawn Services occur all around the country but most important, the War Memorial in Canberra. There are different stages of the Dawn Service. There is a ‘Prior to the Dawn Service’ ceremony that entails readings of letters and diary entries of soldiers. After the service at the War Memorial you have the ability to witness the Tomb of the Unknown Soldier.

*By Janelle, Shanae, Zoe and Monique.*
**Student Awards / Worthy of Praise**

**Prep - 2:**
- **Annalise Boyd** in recognition of her persistence she has put into her improving reading and writing.
- **Tiffany Clarke** also received an award for being such a hardworking, helpful member of our class.
- **Tamikah Clarke** also received an award for her persistence and positive approach to all learning tasks.
- **Jackson Stewart** for being the first Prep/One/Two student to read for 50 nights.

**Year 3/4:**
- **Matthew Caton** for his willingness to learn within given tasks and
- **Jason Clarke** for his enthusiasm towards literacy, well done boys!

**Year 5/6:**
- **Whole of Grade 5/6 Class** - For displaying respective behaviours for Term One and persisting with work in all subject areas. Keep up the great work for Term 2!

**Year 7:**
- **Mitchell Coughlan**: for increasingly trying to remain focused and on task in his classes
- **Pheobe Stewart**: for always trying hard and doing her best
- **Daniel Bathman**: for his great sense of humour and the positive attitude he brings to school every day
- **Declan Baldwin**: for always being bright and bubbly and working hard across all subjects
- **Isabelle Crute**: for consistently working hard and achieving great results
- **Emily Vanderdonk**: for always trying hard and doing her best
- **Patrick Coughlan**—For being a great Science room volunteer, helping to pack up after a prac.

**Year 8:**
- **Jimmmi Clark** for excellent work in the creation of a model castle for Medieval History
- **Peter Cullie** for excellent work in the creation of a model castle for Medieval History

**Support the Canteen and WIN!!**

One lucky lunch order recipient will win a Philips Micro Music System Dock for iPod/iPhone for Term 2.

Second prize is a Cook book.

Each time you **ORDER** your lunch you will receive an entry.

**GOOD LUCK**

Carolyn Geisler
Canteen Manager

**Staff vs Year 12 students**

Cone Ball match

Coming up early in Term 2....

Who will reign supreme?

Staff or students?

Watch this space!!
Library Learnings

Library Newbies - Available 1st Day Back Term 2!!

Just the tip of the iceberg!
SCHOOL NURSE CORNER

Autumn is here and the weather will be changing to a much colder climate. Just be mindful that the air will become crisper and colder and with wood heaters going, this may impact on students who have asthma. Students who have asthma need to bring their blue Ventolin puffers to school, they must have a signed Asthma Management Plan signed by their GP and brought to the school for the school records.

Another issue arising is the lack of sleep some students are having. Sleep is really important for all ages and staying up playing Xbox, play stations and any other digital device until early hours of the morning is detrimental to the students ability to learn. 35 - 40% of children and adolescents experience some form of sleep problem during their development. Sleep problems are either those that: Are intrinsic (come from the inside) and include nightmares, night terrors, bed wetting and snoring
• Are extrinsic (come from the outside) such as bedtime reluctance, anxiety related insomnia, inability to fall asleep alone or environmental and social problems that get in the way of sleep.

Many things can be effected when we do not sleep enough such as:

- Behaviour - aggressive, antisocial, withdrawn, hyperactive, unable to control or regulate behaviour
- Emotion - Moody, depressed, anxious, stressed, uneasy, unconfident, irritable
- Planning - poorly organised, poor time managers, repeating grades, forgets lessons
- Concentration - inattentive, lack of concentration, falling behind in school
- Creativity - not working at full potential
- Problem solving - poor behaviour control and difficulty in social situations
- Complicated thinking - struggles with maths, sciences, languages, abstract concepts
- Motor coordination - less sporty, more accidents, clumsier
- Weight - being obese and overweight is more likely with less sleep
- Health - poorer immune system - sicker more often
- Learning - it is though that sleep, particularly dream sleep or REM sleep, is necessary for storing certain types of memory, particularly more difficult memories such as mathematical

"Sleep hygiene" - this can be defined as habits that can help us to sleep or stop us from sleeping. If you or someone you know is having trouble sleeping you can try to change or include some of the things on this list and see if it helps:

- No TV/computer games 1 hour before bed. No TVs in bedrooms
- Monitor mobile phone use in bed
- No coke/caffeine, high sugar or high spicy food 3-4 hours before bed
- Ensure relaxing and regular bed time routine - special time with children, relaxation techniques such as breathing
- No vigorous exercise 1 hour before bed - it raises the body temperature

GOOD SLEEP HYGIENE CAN HELP PROMOTE GOOD SLEEP

WHAT IS SLEEP HYGIENE?

"Sleep hygiene" - this can be defined as habits that can help us to sleep or stop us from sleeping. If you or someone you know is having trouble sleeping you can try to change or include some of the things on this list and see if it helps:
The 'real world' is reflected in cyberspace

In the 'real world' we teach our children not to go with or talk to strangers. We ask them to be alert to all sorts of dangers, to respect the boundaries we place on their freedom and to avoid taking too many risks.

We also expect them to behave in ways that are respectful toward others. But what do we really teach them about safe and responsible behaviours in the world's largest public space, the internet?

Many of the problems in cyberspace reflect the issues young people face generally. Building young people's capacity to make wise choices and limit irresponsible risk-taking, as well as promoting good interpersonal relationships is at the heart of a holistic approach to cybersafety.

One of the most common forms of aggression experienced by children comes in the form of schoolyard bullying. In recent years we have witnessed peer-to-peer bullying shift to cyberspace - with mobile phones and the internet becoming major tools in vicious 24/7 bullying campaigns. Addressing bullying is a fundamental step to improving young people's safety in cyberspace.

Other well-documented cyber-risks require different strategies to support young people to be safe. These risks include sexual predation, stalking, identity fraud, loss of reputation, viruses and trojans, illegal downloading of copyright material, accessing inappropriate and unsafe content (such as pornography, but also extreme lifestyle support group sites such as those promoting suicide, anorexia, terrorist activity, etc.).

Source: eSmart schools website: http://www.esmartschools.org.au

Do you think you are cybersafe? Perhaps have a go at the following game on cybersafety. You will soon know if you are prepared to make the cybersafe choices necessary to stay safe!

Maths Matters

Information in this week's newsletter is summarized from an article on the following website: www.school.familyeducation.com/math/parenting

Top 10 Ways to Help Your Kids Do Well in Maths

Mastering Maths
Mastering mathematics is absolutely essential for future opportunities in school and careers. Your children will need to reach a certain level of competency in maths to take many advanced high-school courses, to be admitted to university, and to have a wide variety of career choices. Here's how you can help them maximize their maths-smarts.

1. Make sure your children understand mathematical concepts.
   Have your children manipulate objects to figure out basic concepts.

2. Help them master the basic facts.
   Mastery of a basic fact means that children can give an answer in less than three seconds.

3. Teach them to write their numbers neatly.
   Twenty-five percent of all errors in solving math problems can be traced back to sloppy number writing.

4. Provide help immediately when your children need it.
   Maths is one subject in which everything builds upon what has been previously learned.

5. Show them how to handle their math homework.
   Doing maths homework reinforces the skills your children are learning in class. Teach them to begin every assignment by studying the textbook or worksheet examples.

6. Encourage your children to do more than the assigned problems.
   Considerable practice is necessary for your children to hone their maths skills. The more time your children spend practicing their skills, the sooner they will develop confidence in their abilities.

7. Explain how to solve word problems.
   Mathematicians have an expression: To learn to solve problems, you must solve problems. Teach your children to read a word problem several times. Also, have them draw a picture or diagram to describe it.

8. Help your children learn the vocabulary of mathematics.
   They will never get a real feeling for maths nor learn more advanced concepts without an understanding of its vocabulary. Check that your children can define new terms.

9. Teach them how to do math "in their head."
   One of the major ways to solve problems is by using mental maths. When helping your children with a problem, help them determine when it would be appropriate to use mental maths.

10. Make mathematics part of your children's daily life.
    Mathematics will become more meaningful when your kids see how important it is in so many real-life situations. Encourage them to use maths in practical ways. For example, ask them to space new plants a certain distance apart, double a recipe, and pay bills in stores.

The winners of the Maths Competition were Kaedyn Emmett for Prep to 6, and Nikita Schembri for Year 7 and 8

Margaret Turner. Numeracy Support, Rushworth P-12.
HOLIDAY ACTIVITIES

ENQUIRE NOW ABOUT TERM 2 CLASSES

Bespoke Design Prints: ‘Message Me’
Stencil, Print, Stamp

Date: Friday 11 April  
Time: 1pm to 4pm  
Venue: SAM Workshop

Age: 11 to 16 years  
Cost: $38 per person (Friends of SAM $35)

Bookings are essential (03) 5832 9861  
Tutor: Robyn Thompson

You bring the message! Translate your ideas into bold text and creative designs using stencils and stamp printing techniques (includes lino print). Print artist Robyn Thompson will instruct you on how you can translate your ideas onto blank calico tote bags and quality cards/paper. Participants need to bring a sketch book for idea development and an apron.

College Values: RESPECT, Resilience, Excellence, Support, Persistence, Encouragement, Community, Trust.
HOLIDAY ACTIVITIES

ROYAL CHILDRENS HOSPITAL
GOOD FRIDAY APPEAL 2014

We need your help!!

Your help is needed for Good Friday the 18th April 2014.

Are you able to give some time between 9.00am and 1.00pm on Good Friday to door knock for this very worthy cause?

If so, please call Nikki at the Rushworth & District Community Bank on 58562122 or drop into the branch.

Don’t Throw It Out, Make Art!

School Holiday Workshop

Date: Friday 11 April
Time: 10am to noon
Venue: SAM Workshop
Age: 9 to 15 years
Cost: $22 per person (Friends of SAM $20)

Bookings are essential (03) 5832 9861
Tutor: Sarah Trethowan

Inspired by the cut-outs of Henri Matisse, a famous 20th Century artist who used coloured paper, scissors and glue to create some of his wonderful artworks, this workshop will encourage children to recycle and reuse discarded materials to create brand new artworks of their own. Simple, inexpensive materials including wrapping papers of all descriptions, newspapers, packaging materials, personal photos as well as magazine pictures, text and a variety of small items such as matches, straws, plastic cutlery and fabric off-cuts can be included in the development of these images. Bring some of your favourite materials!
HOLIDAY ACTIVITIES

Creative Clay Animals for 10 years +

School Holiday Workshop

Dates: Thursday 10 April & Thursday 17 April  
Time: 1pm to 3.30pm and 1pm to 2.30pm

(two sessions: making + glazing)  
Venue: SAM Workshop

Age: 10 to 17 years  
Cost: $40 per child (Friends of SAM $35)

Bookings are essential (03) 5832 9861  
Tutor: Kaye Poulton

Using stoneware clay, children will learn a range of hand-building techniques to create an animal based upon South American ceramic forms and selected ceramic animal pieces from the collection. The animals will be constructed in the first week and then glazed and decorated in the second week. Pieces will be fired and clear glaze applied by the tutor.
